

MES Environmental – Quality Management System POLICY STATEMENT

MES Environmental Ltd, a subsidiary company of CNIM UK Ltd, is the operating company for three waste processing plants in the Midlands region at Stoke on Trent, Dudley and Wolverhampton. The operation of the plants is carried out by MES Environmental Ltd under an operations and maintenance contract with the project company for each plant. Each facility generates electricity by recovering energy from the incineration of waste using high standard 'state of the art' combustion techniques and environmental controls. The company aims to fully comply with the terms and conditions of its operations and maintenance contracts and regulatory procedure at all times.

MES Environmental Ltd is committed to providing a first class, cost effective, environmentally aware, fast, reliable, efficient and totally dedicated service to meet and fully satisfy the diverse and varying needs of our clients.

MES Environmental Ltd strives to continuously create an environment, which bring out the inherent qualities of its personnel, knowing that highly motivated and committed personnel will ensure the company thrives and succeeds in today's ever-changing environment.

MESE is committed to continually improving its environmental impact including energy performance, prevention of pollution and environmental protection.

The organisation is also committed to the prevention of injury & ill health and to continually improving OH&S management and performance

MESE is committed to complying with all applicable legal requirements, and other requirements to which it subscribes, relating to its environmental aspects and OH&S hazards

MESE is committed to complying with all applicable legislation, permit conditions and other relevant requirements

MESE is committed to complying with The Health and Safety at Work etc Act 1974, the Management of Health and Safety at Work Regulations 1999 and other statutes, imposing legislative duties on all employers and employees. This commitment also extends to the continual improvements in safety standards overall.

MESE will set annual quality, environmental & OH&S objectives & targets designed to ensure continual improvement of its quality management systems. These are periodically reviewed by senior management

The company quality management system is documented, Company Manual, implemented and maintained
The quality management system is structured to conform to ISO 9001, ISO 14001 & OHSAS 18001

The company policy is communicated to all persons working under its control ensuring individuals are aware of their environmental and OH&S obligations

The company policy is available to all interested parties via information boards, company computer network and from the management teams on request

The Company Manual, procedures and policy statement are periodically reviewed to ensure that it remains appropriate to the organisation.

It shall be the duty of all employees and contractors/service providers at work:

To ensure that when performing tasks that have the potential to cause a significant environmental impact(s) as far as is reasonably practicable shall have in place such systems and controls to eliminate or reduce risk to an acceptable level and to co-operate fully with all applicable legislation, permit conditions and other requirements set.

To ensure the health and safety of themselves and others who may be affected by their acts or omissions at work, co-operating fully to enable compliance of any relevant statutory duties or requirements set, and to not misuse any item provided in the pursuance of the maintenance of safety.
